Python Programming - Udemy

PROJECTS

Projectly

The Project Manager app, developed with Next.js, PostgreSQL, and Tailwind CSS, offers a seamless solution for managing projects and tasks. Users can effortlessly create, delete, and organize projects while adding and managing tasks for better productivity. Its responsive and user-friendly interface ensures efficient project tracking and collaboration.

Quizz Application

Created a dynamic Quiz App using Next.js, where questions are fetched in real-time via API calls.
